

## Rotary Hoe

Great for de-compacting horse training yards. Fantastic for turf preparations. Gets used a lot for garden bed constructions and making a veggie garden down the back.

## Post Hole Auger

Fantastic for planting potted plants quickly and easily. Perfect for getting your fence post holes drilled Stick

## Stick Rake

Great for cleaning up after storms, tidying up paddocks and gathering up all those sticks off the property. Great for cleaning up grass clippings from slashers and raking off construction sites

## Rear Forks

A very handy and mobile utensil. No need for heavy lifting when tidying up, or site clean ups. We normally carry the forks to all our jobs just because they seem to always be handy
