

## One Compact Unit With Multiple Uses

Our compact tractor with 4 in 1 bucket is capable of earthworks in tight areas. It is extremely good for mulching gardens over big areas, top dressing or soil movements, scraping and levelling, trimming, site clean ups and much more.

Fitted with a backhoe, this makes our compact tractor extremely powerful for its size and very versatile. Great for trenching, planting, shaping, scrubbing ground, small stump removal, lantana removal, most irrigation works.

Add the Spreader/Levelling Bar and suddenly our compact unit can spread soil, road base, crusher dust etc, and then level off or shape as required. This unit is excellent for turf prep, driveways, concrete slab preparation, swale drain shaping, car parks, footpaths, top dressing turf
